Beside the above mentioned guests, workers from the Slovenian branch and the local community attended the ceremonies.

The new production and logistics hall, that also contains several offices, is estimated at about 3.7 million euros. Additional construction projects with a proposed size of 3.300 m² will be finished until the end of

2017. This increases the capacity of the location in Prebold to 39.500 m². Since October last year odelo Slovenija d.o.o. recruited more than 380 new workers. Additional recruitments will follow until the end of the year.

New employees and additional production capacity is enabling the odelo group a sales growth up to 60% in 2017.

The opening of the new production and logistics hall is another important landmark for the odelo group. With the expansion of the factory in Prebold, odelo is investing in the future as the technology leader in tail- and signal lights. Thereby odelo satisfies the great demand from its premium customers and the variety of variants resulting from this great demand.
